

AIR CONDITIONERS

FUJITSU

FO*20C

EcoNet® Enabled Inverter-Driven Variable Speed Air Conditioner

AVAILABLE SIZES:
2, 3, 4, and 5 ton

EFFICIENCY:
Up to 20 SEER / 13 EER

The FO*20C EcoNet Enabled, inverter-driven air conditioner offers solid technology and energy saving performance for ultimate home comfort.

TECHNOLOGY THAT ADAPTS TO HOME COMFORT NEEDS

When the outside conditions heat up, the variable-speed technology will quickly adapt to your inside cooling needs.

SAVINGS AND EFFICIENCY

Fujitsu inverter - driven technology provides the right amount of cooling under all conditions for dependable comfort and energy savings throughout the year.

QUIET AND EFFICIENT

The FO*20C runs at lower speeds throughout the day which makes for quiet performance - and the streamlined airflow and reduced vibrations makes these models quieter than ever.

CONTROLS AND ALERTS

The innovative EcoNet control technology displays important alerts and reminders so your system keeps working at its best.

INVERTER-DRIVEN COMFORT

Inverter technology means your unit works to adjust to your cooling needs, indoor fan speeds sync with the compressor's speed to match air input and output. This results in a continual and efficient adjustment to your comfort needs, offering more precise all day temperature, humidity and indoor air quality control.

RELIABLE AND LEGENDARY

① **inverter-driven scroll compressor** technology makes the FO*20C Series as efficient as it is durable. The ② **optimized fan orifice** also contributes to quieter operation, optimal airflow and better overall performance. Simply put, you get efficient comfort that lasts a very long time.

A QUIETER AND MORE DURABLE UNIT

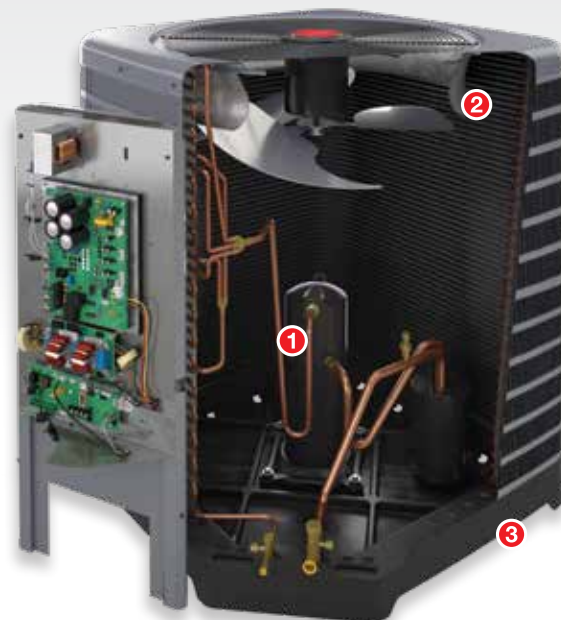

Starts with our smart new ③ **composite base pan**. The design helps eliminate corrosion and adds to quieter performance. Extensive UV testing was done to ensure that the base pan stays black for years to come. Our enhanced mufflers and improved refrigerant tubing design also contribute to a quieter, more reliable operation.

CURB APPEAL

Is not lost on our new FO*20C Series. Our air conditioners look as good as they operate. Modern cabinet aesthetics allow your unit to put its best face forward, and a powder coat paint system provides a lasting professional finish.

FAST AND ACCURATE INSTALLATION AND MAINTENANCE

Means your savings start with the installation of your new unit. Our FO*20C Series Air Conditioners are built to go in fast and easy. The control box is also easy to access, and a roomy diagnostic service window means maintenance calls go quickly, saving you time and money.

BENEFITS AT-A-GLANCE

COOLING EFFICIENCY:
Up to 20 SEER/13 EER

SOUND LEVEL:
Features like our smart new composite base pan contribute to quieter operation

AVAILABLE SIZES:
2, 3, 4, and 5 ton

COMPRESSOR:
Inverter-Driven, Copeland Scroll™ compressor

WARRANTY¹:
Parts - 10 Years
Conditional Unit Replacement - 5 Years

LIMITED WARRANTY INFORMATION¹:

Parts - 10 years
Conditional Unit Replacement - 5 Years

¹ For complete details of the limited warranties, including applicable terms and conditions, contact your local contractor or go to www.fujitsugeneral.com for a copy of the product warranty certificate.

² Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.
