

GAS FURNACES

FF***LS80Z

Ultra Low-NOx Gas Furnace

EFFICIENCY:
80% AFUE

The Fujitsu FF***LS80Z Gas Furnace has all the right features to create a comfortable home for you and your family. Our furnace is also quiet, so you can stay focused on what matters most.

RELIABILITY

We're serious about the quality of our products. That's why our gas furnaces are engineered with the exclusive Direct Spark Ignition System which is the most reliable ignition system in the industry and ensures that your furnace will light right every time. The variable-speed motor is permanently lubricated for years of worry-free operation and comfort.

PEACE OF MIND

In addition to many features to ensure years of reliability, our gas furnace is also backed by a 10 year conditional parts and 20 year heat exchanger warranty.

ENVIRONMENTALLY FRIENDLY

The Fujitsu FF***LS80Z gas furnace incorporates industry leading technology designed to reduce NOx emissions, making it safer for the environment and your family. Plus, this model is exempt from any mitigation fees imposed by the Southern California Air Quality Management Districts (SCAQMD).

WE DID THE WORK SO YOU CAN STAY COMFORTABLE

Our gas furnace is designed to provide your home with reliable, quiet comfort for years to come.

RELIABILITY IS ESSENTIAL TO YOUR HOME COMFORT.

That's why we've built our gas furnace with the Direct Spark Ignition System – it's nine times more reliable than most hot surface igniters. It's also the same proven design used in commercial HVAC equipment and gas home appliances. Our heat exchanger is quick and easy to clean – when needed – by your local Fujitsu Dealer. A clean furnace is a long-running furnace.

QUIET OPERATION

is the result of a tighter door seal that helps eliminate whistling. We've also added rubber grommets on the motor mounts and a twist lock wire harness in the blower shelf. The result is an impressively quiet furnace.

FAST AND ACCURATE DIAGNOSTICS

are a big benefit to both you and your dealer. Our gas furnace features Diagnostics with a 7-segment alphanumeric LED display that simplifies troubleshooting. Just in case there's a need, service calls are faster, which ultimately saves you money.

SAVE ON YOUR ENERGY BILL

with a new gas furnace from Fujitsu. The FF***LS80Z delivers 80% AFUE, which means 80% of the fuel in your furnace is converted to heat for more efficient comfort and savings for your home. Plus, the variable-speed blower motor provides consistent airflow while using less electricity.

HASSLE FREE INSTALLATION

saves you and your dealer time and trouble. The 34" cabinet fits nicely in tight spaces allowing for both new construction and retrofit installations.

BENEFITS AT-A-GLANCE

EFFICIENCY:
80% AFUE

SOUND LEVEL:
Tighter door seals, rubber grommets and a twist-lock wire harness in the blower shelf ensure quiet operation.
